PROFILE

I'm currently looking for the right opportunity to work in an environment that will help me progress into a front-end role. I have a year and a half of experience in front-end, most of times I were using react to build apps. My goals for now are to maximize skills in front-end development and, in the meantime, get a solid understanding of back-end.

SKILLS

HTML · CSS/SCSS · Tailwind CSS · JavaScript (ES6+) · React · Node.js · Redux (toolkit)
